To mitigate the impact of the recent abnormal rise in international oil prices on the domestic market, temporary control measures will be implemented on domestic refined oil prices while maintaining the existing price mechanism framework. Effective from 24:00 on March 23, the prices of gasoline and diesel (standard grades, the same below) will increase by RMB 1,160 and RMB 1,115 per ton, respectively. The adjusted maximum retail prices of gasoline and diesel in various provinces (autonomous regions and municipalities) and central cities are shown in the attached table.

China National Petroleum Corporation (CNPC), China Petroleum & Chemical Corporation (Sinopec), and China National Offshore Oil Corporation (CNOOC), along with other crude oil processing enterprises, must organize the production and transportation of refined oil products to ensure stable market supply and strictly implement national price policies. Relevant departments at all levels should strengthen market supervision and inspection, severely punish any violations of national price policies, and maintain normal market order. Consumers can report price violations through the 12315 platform.
